

Trainee Water Treatment & Water Hygiene Technician

With over 25 years' experience within the water hygiene and water treatment industry Calibre Environmental has an opportunity for an enthusiastic trainee water treatment/water hygiene technician to join our professional team providing water treatment services and water hygiene and legionella compliance to our many varied clients working to the codes of practice, legislation and standards guidance.

We welcome applications from applicants who would like to enter the industry as a trainee who will be given training for the role.

The successful applicant can expect continued training through both on the job mentoring and external training bodies.

The successful applicant will be working on various sites generally throughout, but not restricted to, the London area, Home Counties, and the South East of England, delivering high levels of service to and maintaining excellent relationships with the company's clients.

Job responsibilities:

- Disinfection of domestic water systems to current standards and guidelines
- Implementation of the ACOP L8 and HSG274 legionella control water monitoring
- Domestic water sampling
- Compliance remedial works
- Closed system chemical and bacteriological testing
- Closed system chemical treatment
- TMV checks and servicing
- Servicing and replacement of water softeners and filters
- Accurate completion of site report sheets and site logbooks

Experiences and personal qualities required:

- Full UK Driving Licence is required
- Ability to work to current health and safety standards
- Must be self-motivated, have a good work ethic and be organised with good planning skills
- Able to work independently or as part of a team
- Good communication skills, both verbal and written
- Accuracy and attention to detail
- Presentable appearance
- Must be eligible to work within the UK

Due to our client base a disclosure for enhanced DBS checks and driving licence check will be required by the successful candidate, the costs of the DBS check will be met by the company.

Details:

- Competitive salary dependent upon industry experience
- Auto enrolment pension scheme
- Health cash plan benefit available after a successful probation period
- Company van with fuel card
- Company mobile phone and tablet device supplied
- On site working hours 40hrs per week
- Due to the nature of the work, some weekend and evening overtime working at an enhanced rate will be required
